

# HRISHIK DEY

Master's Student in Computer Applications|Fresher

## About Me

*I am a dedicated MCA student skilled in full-stack development and software engineering. I have worked on projects addressing real-world problems, including note organization and healthcare systems. I am passionate about learning new technologies and eager to contribute to professional software development teams.*

## Projects

### Shipsy-Goods Shipping Website

A web app based on goods shipping platform

- Built using MERN stack (MongoDB, Express, React, Node.js)
- Enabling real-time package creation, tracking, and logistics management for e-commerce

### Project Management App – Issue Tracker

A task management app with drag-and-drop Kanban board interface

- User authentication, project and ticket management
- Frontend in React with Tailwind CSS; backend with Node.js and MongoDB

### Digital Signature Website

A secure platform for generating and verifying digital signatures

- Developed a frontend interface and implemented cryptographic methods
- Focused on document authenticity and user verification

### Rural Health System

A web-based portal aimed at improving healthcare accessibility in rural areas

- Provides patient registration, doctor consultation, and health record management
- Integrated nearby pharmacy medicine availability and path lab test availability
- Features medicine reminders for patients via scheduled alerts

## Education

2024-2026

Adamas University  
Pursuing master's in Computer Application

2021-2024

Adamas University  
Bachelor of Computer Science  
Percentage - 72.2%

2021

Central Model School  
CBSE Class-XII  
Percentage - 59.5%

2019

St. Claret School  
CBSE Class-X  
Percentage - 61%

## Skills

- Languages: C, Java, JavaScript, Python
- Web: HTML, CSS, React, Node.js, Express
- Database: MongoDB, MySQL
- Tools: Git, GitHub, VS Code

## Language

English  
Bengali  
Hindi
